

Fall Cocktails

Eight drinks. Learn the pattern first — five of them are the exact same five moves, and the other three break it in one place each. Once you know where they break, you know the menu.

The five moves

This is the whole job on most of these drinks.

- 1 Combine everything in the shaker tin
- 2 Add ice
- 3 Shake — hard, 10–12 seconds, until the tin frosts
- 4 Strain into the glass
- 5 Garnish

Three things change from drink to drink: **what goes in the tin**, **what glass it lands in**, and **what goes on top**. Everything else is the same. Where a drink genuinely breaks the pattern, there's an orange **Watch out** box — those are the five things that actually get sent back.

GROUP 1 OF 3 · FIVE DRINKS

Shaken, served over fresh ice

The five moves, straight through. Always fresh ice in the glass — never the ice you shook with.

Channel Orange

POUR INTO THE TIN

2.00 oz Channel Orange
Biz

1.75 oz Pear Chai Biz

0.50 oz Lemon juice
Fresh

TOTAL POUR 4.25 OZ

THEN

- 1 Add ice and shake.
- 2 Strain over fresh ice in a rocks glass.

FINISH

GLASS Rocks
ICE Fresh rocks ice
GARNISH Sage + cinnamon stick

What it should look like

Don't Worry About It Sweetheart

POUR INTO THE TIN

2.00 oz DWALS Biz

3.50 oz Cider Mix Biz

0.50 oz Lemon juice
Fresh

TOTAL POUR **6.00** OZ

THEN

- 1 Add ice and shake.
- 2 Strain over fresh ice in a rocks glass.

FINISH

GLASS Rocks

ICE Fresh rocks ice

GARNISH Rosemary sprig

What it should look like

Green Goddess

FIRST, PREP THE GLASS

rinse Pernod
Coat the inside of a rocks glass,
then dump the excess

POUR INTO THE TIN

2.75 oz Goddess Biz

0.50 oz Spicy cucumber juice

1.00 oz Lemon juice
Fresh

TOTAL POUR **4.25** OZ

THEN

- 1 Add ice and shake.
- 2 Strain over fresh ice in the rinsed glass.

FINISH

GLASS Rocks — Pernod-rinsed

ICE Fresh rocks ice

GARNISH Mint bushel

WATCH OUT

The Pernod never goes in the tin. It coats the glass and gets dumped — you're after the aroma, not the pour. Rinse the glass *before* you shake, so the drink isn't sitting while you do it.

LMF 2.0

POUR INTO THE TIN

4.00 oz LMF 2.0 Biz

0.25 oz Turmeric juice

0.50 oz Lemon juice
Fresh

TOTAL POUR **4.75** OZ

THEN

- 1 Add ice and shake vigorously.
- 2 Strain over fresh ice in a rocks glass.
- 3 Dust lightly with dragonfruit powder.
- 4 Add a small pinch of calendula flowers.

FINISH

GLASS Rocks

ICE Fresh rocks ice

GARNISH Light dusting of
dragonfruit powder,
then a small pinch of
calendula flowers

What it should look like

WATCH OUT

The garnish is two separate motions, in order: dust first, then the pinch of calendula on top. Dusting over the flowers buries them. Keep the dusting light — you're tinting the surface, not coating it.

No New Friends

POUR INTO THE TIN

3.00 oz NNF Biz

1.00 oz Lime juice
Fresh

TOTAL POUR **4.00** OZ + SODA

THEN

- 1 Add ice and shake vigorously.
- 2 Strain over fresh ice into the 12 oz tall glass.
- 3 Top with soda water.

FINISH

GLASS 12 oz tall

ICE Fresh ice

GARNISH Hibiscus leaves + tarragon sprig

WATCH OUT

The soda goes in *after* the shake, in the glass — never in the tin. Shaking soda kills the bubbles and can blow the tin apart in your hands. The soda isn't measured: it tops the glass, which is why this is the only drink here without a fixed total.

Shaken, served up

Same five moves, but nothing lands in the glass except the drink. Chill the coupe before you start.

Chai Hard

POUR INTO THE TIN

2.25 oz Titos Chai Biz

1.00 oz Blonde espresso

1.50 oz Pecan brown sugar syrup

pinch Himalayan salt

TOTAL POUR **4.75 oz**

THEN

- ① Add ice and shake.
- ② Strain up into a chilled coupe.

FINISH

GLASS Coupe / martini

ICE None — served up

GARNISH 1 star anise

What it should look like

Espresso Martini

POUR INTO THE TIN

2.00 oz Liquor of choice
The guest picks — ask before you build

1.00 oz Simple syrup

2.00 oz Espresso
Pulled fresh

TOTAL POUR **5.00 oz**

THEN

- ① Add ice and shake.
- ② Strain up into a chilled martini coupe.
- ③ Float 3 espresso beans.

FINISH

GLASS Martini coupe

ICE None — served up

GARNISH 3 espresso beans

What it should look like

WATCH OUT

This is the only drink on the menu with no liquor written into the spec — the guest chooses. Ask first, then build. If you pour before you ask, you're dumping it.

Built in the glass

No tin, no shake. Everything happens in the glass the guest drinks from.

Scarlett Spritz

BUILD IN THIS ORDER

- 1 Pack a wine glass with ice.
- 2 Pour **2.50 oz Spritz** over the
Biz ice.
- 3 Top with **5.00 oz Prosecco** .
- 4 Stir once with a bar spoon, lifting from the bottom.

FINISH

GLASS Wine
ICE Packed
GARNISH Rosemary

TOTAL POUR **7.50 OZ**

WATCH OUT

Never shake this one. Order matters: ice, then biz, then Prosecco — the biz sits underneath and the bubbles lift it as you stir. One gentle lift from the bottom is the whole stir; whipping it flattens the Prosecco and you've made a warm, flat spritz.

All eight at a glance

Cover the right-hand columns and work down the list. If you can call the glass and the garnish from the name, you know the menu.

DRINK	BASE	GLASS	GARNISH
Channel Orange	Channel Orange + Pear Chai Biz	Rocks	Sage + cinnamon stick
Don't Worry About It Sweetheart	DWAIS + Cider Mix Biz	Rocks	Rosemary sprig
Green Goddess	Goddess Biz	Rocks, Pernod-rinsed	Mint bushel
LMF 2.0	LMF 2.0 Biz	Rocks	Dragonfruit powder + calendula
No New Friends	NNF Biz, topped with soda	12 oz tall	Hibiscus leaves + tarragon
Chai Hard	Titos Chai Biz + espresso	Coupe, up	1 star anise
Espresso Martini	Guest's liquor + espresso	Martini coupe, up	3 espresso beans
Scarlett Spritz	Spritz Biz + Prosecco	Wine	Rosemary

Build to spec every time — no free-pouring the biz. If a batch runs low, call it before you're out.

Spec changes go through the bar lead. Mark up a printed copy rather than changing the build on the fly.
